PRECISION COMPATIBILITY FOR LASTING KIDNEY HEALTH

- **Kidney for Life** unveils the power of eplet testing – a groundbreaking technology transforming the landscape of organ matching and transplantation.
- **Eplet testing** goes beyond traditional matching methods.
- This personalized approach enhances compatibility, leading to more successful and lasting transplant outcomes.
- **We are 1 of only 10 programs nationwide offering our patients the KFL Expert System.**
- Speak to your transplant coordinator today to learn more about this opportunity.
- **Precision Match:** Find the organ donor that best fits your body's unique characteristics.
- **Improved Success Rates:** Experience enhanced transplant outcomes and decreased risk of rejection.
- **Lower Transplant Medication:** Patients may safely take fewer medications, which means fewer side effects.
- **Donor Protections:** All KFL donors can access Donor Shield, a unique living donor assistance program.
